PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience designing and delivering scalable software solutions across web development, data engineering, and artificial intelligence. Skilled in building production grade platforms, RESTful APIs, and automated workflows, with a growing focus on AI and data driven applications. Comfortable working across the full stack and across borders, having contributed to multi-regional platforms serving users across Europe and Africa.

PROFESSIONAL EXPERIENCE

Back End Engineer

Primini — Kram, Tunis, Tunisia | November 2025 — Present

- Maintained and developed new features for Primini, a price comparison platform operating in **Tunisia, Morocco, and Congo**.
- Designed and implemented scalable **MongoDB**-based scraping schemas to onboard new e-commerce stores, accelerating marketplace integration and expanding product coverage.
- Automated deployment and monitoring workflows for distributed scraping services using **SSH, PM2**, and custom scripting, improving operational reliability and reducing manual maintenance effort.
- Enhanced data quality across store integrations by troubleshooting and updating outdated scraping schemas, improving accuracy and consistency of product data.

Full Stack Engineer

Magic Prices — Kram, Tunis, Tunisia | November 2024 — October 2025

- Developed and delivered new platform features for **Magic Prices**, a multi-regional price comparison platform serving users across **France, Italy, and the United Kingdom**.
- Built and maintained the customer-facing web application using **Next.js**, ensuring both a performant and responsive user experience.
- Developed and enhanced administrative tools using **Angular** and **Node.js**, enabling efficient management of platform content, integrations, and operational workflows.
- Designed, implemented, and maintained RESTful APIs in **JavaScript** and **TypeScript**, supporting platform scalability and seamless frontend-backend communication.
- Created automation workflows using **n8n** to eliminate repetitive manual tasks and improve operational efficiency.

SKILLS

ARTIFICIAL INTELLIGENCE	Python, R, Roboflow, PyTorch, TensorFlow, CNN, OpenCV, NLP
DATABASES	MongoDB, Firebase, MySQL, Microsoft Access, SQLAlchemy, SQLite
WEB DEVELOPMENT	Nodejs, Nextjs, Reactjs, Flask, Django, Angular, Javascript, Typescript
MOBILE DEVELOPMENT	Flutter, Provider, BLoC
DEVOPS TOOLS	Docker, Kubernetes, n8n, PM2, SSH
BUSINESS INTELLIGENCE	Power BI, Microsoft Dynamics, SSIS, SSAS, SSRS, Microsoft AL
COLLABORATION TOOLS	Git, Github, Gitlab, Jira

EDUCATION

Engineering Degree in Software Development

Higher Institute of Computer Science — Ariana, Tunisia | 2021 — 2024

Bachelor in Computer Science

Higher Institute of Computer Science — Ariana, Tunisia | 2018 — 2021
