EDUCATION

Higher Institute of Computer Science

2021 - 2024 / Ariana, Tunisia

Engineering degree in software development

Higher Institute of Computer Science

2018 - 2021 / Ariana, Tunisia

Bachelor in computer science

PROFESSIONAL EXPERIENCE

Primini

September 2025 - Present / Kram Tunis, Tunisia

Back End Engineer

- Maintaining and adding new features to Primini, a price comparator based in **Tunisia** and also used in **Morocco** and **Congo**.
- Integrated new e-commerce stores into the platform by designing and configuring dynamic scraping schemas in **MongoDB**.
- Deployed and managed scraping processes on remote servers via **SSH** using **PM2** and custom automation scripts.
- Maintained and updated existing store integrations by fixing outdated schemas and improving data accuracy (product descriptions, pricing).

Magic Prices

November 2024 - Present / Kram Tunis, Tunisia

Full Stack Engineer

- Developed new features for MagicPrices , a multi-regional price comparison platform serving users in **France, Italy**, and the **UK**.
- Using **Nextjs** for development on the client side part of the price comparator.
- Using **Angular** and **Nodejs** for development of the admin sub project used to manage the client side website.
- Using **Javascript** to create and manage the different APIs.
- Creating workflows using **n8n** to automate certain tasks relating to the project's functionality .

SKILLS

ARTIFICIAL INTELLIGENCE	Python R Roboflow PyTorch TensorFlow CNN OpenCV NLP
DATABASES	MongoDB Firebase MySQL Microsoft Access SQLAlchemy SQLite
WEB DEVELOPMENT	Nodejs Nextjs Reactjs Flask Django Angular Javascript Typescript
MOBILE DEVELOPMENT	Flutter Provider BLoC
DEVOPS TOOLS	Docker Kubernetes n8n PM2 SSH
BUSINESS INTELLIGENCE	Power BI Microsoft Dynamics SSIS SSAS SSRS Microsoft AL
COLLABORATION TOOLS	Github Gitlab Jira
LANGUAGES	Native: Arabic Advanced: English Intermediate: French

INTERNSHIPS

Object/Face Detection Plugin

February 2024 - July 2024 / North Urban Center Tunis, Tunisia

Computer Vision / Video Analytics Developer in **QNB Banking**

Developed and integrated a suite of custom computer vision plugins for the Milestone XProtect security system, including a red zone monitoring tool to detect security breaches in critical areas, a face detection system across multiple camera feeds, and an object detection solution designed to identify lost items.

Tools : YOLO | Roboflow | Python Docker | Milestone XProtect | Nvidia CUDA .

Automation Suite for AUTOSAR Layer

July 2023 - 2024 / El Ghazela Technopole Tunis, Tunisia

QA Tester/Python Developer in **Capgemi Engineering**

Developed a Python automation suite with GUI interfaces to verify and configure AUTOSAR layers (CAN, CanIf, COM, PduR, EcuC). The tools cross-referenced Excel specifications with XDM configuration files and generated automated reports, significantly reducing manual validation effort.

Tools : Python | Tkinter | AUTOSAR | Automotive Configuration | StackCom Validation.
